Texas New Plumbing Fixture Standards Compliance Update for January 2011

Dear Valued TOTO Customer:

Texas (HB2667) with regards to High Efficiency Toilets and Urinals, recently enacted regulation that requires that not less than 67% of toilets and urinals offered for sales by a manufacturer on or after January 1, 2011 must meet the new efficiency standards.

The new efficiency standards requires toilets to increase efficiency from 1.6 gallons per flush (gpf) to 1.28 gpf and urinals from 1.0 gpf to 0.5 gpf.

Due to this regulation, the following models can not be shipped to Texas effective January 1, 2011.

Product No.	Description	GPF	Available HET	GPF
MS904114#XX	Pacifica 1pc Toilet	1.6	N/A
