

## ZeroDrain™

*The world's first pop down drain!*

Open  
(water is draining)

Closed  
(water stopped)

- In the open position, stopper is level with sink, resulting in "zero clearance" superior design.
- Easier to install and service compared to standard pop up drains. Saves significant time and money.
- Meets U.S./Canada plumbing codes. IAPMO approved. Patent-pending.
- Thick sink extension and extended tailpiece available.
- Available in 30+ artisan finishes
