RE New Price List

Dear Valued Partners,

We are excited to present our redesigned price list for 2011. The new price list has a better overall look, as it is in line with our corporate branding that ties to the website and main brochure.

Some noticeable improvements:

- A. We have added overhead tub photos to create a clear picture of the tub model selected.
- B. We have alphabetized the "options" page to create a more efficient system for adding key features and personal therapy enhancement.
- C. We have also increased the number of pages, allowing for a larger font, making it easier to read.
- D. We have added our NEW order worksheet to simplify the process of creating a personalized tub.

Additionally you will notice quite a few new models of both Bathtubs and Shower Pans Including our new "Stealth" line of shower pans. Available soon in 3 sizes - 6032, 3636 & 4242. The "Stealth" is the industry's first 100% acrylic freestanding shower base. Due to the uniqueness of this design, a tiling flange can be molded to any side of the base or it can be installed freestanding. This pan also creates a unique design advancement by eliminating the traditional "step-over" threshold. With a minimal 2" threshold height, it can easily be recessed into the floor for a truly "stealth" installation.

I am sure you'll like the new layout and additional product offering included in this new price list. With the rising costs of all raw materials we have also included a minimal 2.5% - 3.5% increase. In comparison to other increases being seen in the marketplace, I think you'll agree that it is reasonable. This new price list will go into effect June 15, 2011.

We want to thank you for your support and promise to continue striving to be the best bathtub company in the business.

Thank you,

David M Ortwein
Executive VP
Hydro Systems, Inc.
